Real Men Giving Real Time

Dear Parent or Guardian:

Historically, the success and continued vitality of any society has been predicated on its ability to prepare future generations for life's varied challenges. Consequently, education has been the primary tool employed by societies to orchestrate the successful development of future generations for their societal roles and responsibilities. To that end, the Orange County Chapter of the 100 Black Men of America (100BMOC) developed the Passport to the Future Program. The aim of the program is to develop socially conscious, responsible, and respectable African-American male youths, which recognize the possibility and potential to achieve educational, career and life goals.

Since the late 90's, the 100BMOC has sponsored Passport to the Future. We invite you to introduce your high school student to our program. Passport is an educational program designed for African-American males in grades 6-12, which enhances the academic and social development of these high school students. Specifically, the program's goals are encouraging and supporting individual grade improvement through an environment of community support, providing mentorship, fostering post high school career goals, and enriching social kinships. This program also encourages intercommunication with the family and the school. The program's classes and activities are held on average two Saturdays per month at Sage Hill High School, 20402 Newport Coast Drive, Newport Coast, CA 92657.

We are very proud of our Passport to the Future Program and invite you to apply for enrollment of your son in the upcoming sessions. Applications can be obtained online at www.100bmoc.org. or contact Dereck E. Moore at dmoore@100bmoc.org. To learn more about the Passport Program and this unique opportunity for your son we urge you to attend our Passport Program recruitment meeting identified below:
